SMALL IS THE NEW

BIG

IN ADDITIVE MANUFACTURING

**No 1, 2017**

A newsletter from Digital Metal about the possibilities within high-precision binder-jetting

## Meet the new Digital Metal® at TCT

Planning a visit to the TCT Show in Birmingham? Swing by Digital Metal at stand F14 to get a glimpse of how our unique binder-jetting AM technology can boost your business.

## Digital Metal opens for machine sales

Interested in printing metal components at your premises? Digital Metal now offers advanced industrial 3D metal printers along with all the support you need to set up your own production.

## Take a virtual tour

At our TCT stand in Birmingham, you can get an exciting Virtual Reality experience and an exclusive inside look at our manufacturing facilities in Höganäs, Sweden.

---

## Print yourself in 3D

Our Digital Metal customers can get a scan at our stand to receive a 3D printed bust sculpture of yourself – perfect down to the tiniest wrinkle.

---

## Introducing a new website

As TCT 2017 opens to the public on 26 September, so will our new website. Be sure to bookmark [digitalmetal.tech](http://digitalmetal.tech) now!
